The **second item of business** was Discussion on Hangar Development. Director Vinton began by describing the development that is going to take place around the 400 hangars. Mr. Bland recommended that the city should install the access gate and taxiway to that area. It was also stated that we should give the renters of the current 400 hangars the option to remain and that the airport should retain these 2 hangars as they are a valuable asset.

Another recommendation was to start developing the South side of that section and then continue with the North side as clients come forth to lease more plots.

Mr. Ayers asked about the land to the Northwest that the airport owns. Proceeds from the sale of that parcel could offset the cost of development at other areas of the airport.

The **third item of business** was to adjourn.

Brandon Ayers, Chairperson

David Vinton, Airport Director
